The strategy of the scheme is to earmark one third of resources for women in individual beneficiary oriented schemes and labour intensive schemes of various departments of Govt.

Accordingly, funds of 24 departments with total of 247 schemes were earmarked for the year 1999-2000. Out of the total outlay of Rs.1076.93 crores, the allocation for K MAY is Rs.412.22 crores. An amount of Rs.195.14 crores was incurred upto the end of January 2000.

The following schemes have been taken up in these two districts.

(a) Self help groups:

The most important feature of the devadasi rehabilitation programme is its orientation viz., to create awareness among the devadasi women. The self help group concept has been adopted. Devadasis women are identified and formed into groups in their own village, who meet

once in a week or fortnight to discuss their various problems. It is a socially functional homogeneous group of women with similar concerns, needs and interests. Membership is voluntary with non political motivation, making for participatory nature of discussions, decision making and action programmes. Members of these groups also make savings at each meeting and keep that amount in a bank account. The group members avail loans out of these savings.

(b) Social programmes :

Since the devadasi system is an age old practice and can not be eradicated only by providing economic programmes, regular awareness campaigns, organising groups and group meetings, street plays, thematic songs, display of posters, TV shows, exposure trips, non formal education, incentive allowance for school going children of devadasi women, compulsory enrolment of their wards at schools and health programmes are being implemented. As a result, remarkable awareness has been created on the evils of this system among the devadasi women

and the public in general. Also they have been motivated regarding their health and their children's education.

(c) Income generating activities

Devadasi women have been encouraged to take up income generating activities like poultry farming, dairy farming, petty business etc. The Corporation gives 60% subsidy for this activity on loans secured from banks. For the year 1999-2000 Rs.77.82 lakhs has been spent and 1086 beneficiaries covered.
